Less than two weeks to go!

With less than two weeks to go, we are excited that so many people have registered for ISBR 2023 in St Louis! More people than any ISBR symposium since 2012 are looking forward to being part of this first in-person event in over four years after the long, pandemic-imposed absence.

Preparations are all on-track for the scientific sessions and social events at the iconic Union Station Hotel, and we are focused on making the symposium a rewarding and enjoyable experience for everyone involved.

Still time to register

Registration is still open. Therefore, if you haven't already done so, ensure your passports and visas are valid, register and book your flights and accommodation.

Accommodation: Rooms at the Union Station Hotel are no longer available at the ISBR rate. Rooms may still be available at the usual rate. Alternative accommodation is also available at a reasonable rate at the nearby Courtyard St. Louis Downtown West or the Drury Inn St. Louis Union Station. Please visit the ISBR Symposium website for [more details](#) and to make reservations.

Symposium Dinner - limited tickets available

Places are filling quickly for the symposium dinner, but a few tickets are still available! **Act now to ensure you don't miss out** on a wonderful evening of memories, music and great food at the Union Station Hotel on the evening of Wednesday 3 May 2023.

Listen to the amazing sounds of the [Vince Varvel](#) Trio, jazz musicians from Washington University in St Louis', while you relax with friends and colleagues and enjoy a scrumptious St Louis Barbecue-style meal.

Tickets are \$100 per person and include delicious food, entertainment, and limited drinks. Please book and pay now by logging back into your online profile to purchase your tickets. See you there!

Program Finalized

The Symposium Program is complete! Latest program updates are available [here](#) on the ISBR Symposium website, and printed programs will be available at the symposium.

ISBR 2023 APP

An exciting new feature for this symposium is the ISBR 2023 APP that will be available for all attendees to download in advance. It will contain up-to-date details and comprehensive information about the program and the venues, as well as features that enable you to use it as a networking tool and create your own agenda for the symposium. Registrants will also be able to upload their photos and any information that they would like to share with colleagues.

Please feel free to share this newsletter with all your contacts!!
