

SAVE THE DATE !

We are excited to announce the 17th ISBR Symposium (ISBR 2025) from **2 to 6 November 2025** in the scenic city of Ghent, Belgium, at the Ghent ICC. The Symposium will present a highly relevant and interesting program exploring the theme of *Cultivating Bio-Innovation for a Sustainable Future*. Building on the success of ISBR 2023 in St Louis, USA, this in-person symposium will again feature scientific exchange between the world's leading experts on diverse sustainable bio-innovation, biotechnology and biosafety topics through a comprehensive program of plenary, parallel, workshop and poster sessions.

We will be reaching out to potential session organisers, speakers, sponsors, and participants shortly with more information. For now, please mark **2 to 6 November 2025** in your calendars!

Dr. Joerg Romeis
ISBR President
